**Re:** *Recommendation*

---

To whom it may concern,

Our office hired Metzad Engineering Company as a General Contractor represented by Mr. Amnon Cohen as Project and Construction Manager to construct a 2,600 m<sup>2</sup> one story concrete building in Akká.

Mr. Cohen managed the project with a high level of professionalism and efficiency. His management of all sub-contractors and documentation of the construction process has been superb. We would consider inviting Metzad Company to join our upcoming project again and highly recommend them.

Warm regards,

Khosrow Rezai,  
Project Manager, AIA, NCARB  
Office of Northern Development Projects
